

WAXING TANNING MAKEUP

0435 776 473

To ensure the best results for your upcoming spray tan, we recommend following these instructions to develop a beautiful golden even coverage

TAN PREPARATION

- Start exfoliating your skin leading upto your spray tan, using a loofa or exfoliating glove
- Moisturise twice daily to ensure your skin is perfectly hydrated
- At least 24hours before your tan remove all unwanted hair either it be waxing or shaving. DO NOT wax or shave on the day of your tan
- ON THE DAY OF YOUR TAN:
NO EXFOLIATING
NO MOISTURISER
NO DEODARANT
NO PERFUME
Wear loose fitting clothing and thongs

TAN AFTER CARE

- Your tan will be set before you leave Elly B Salon, ensure you DO NOT get wet for the required time instructed
- When you do have a shower just have a warm one, rinse your body until the water runs clear.
- Pat dry with your towel and moisturize
- Moisturise daily to prolong your tan and for your tan to fade off naturally

TAN FAQ

Q: *Is it safe to spray tan whilst pregnant?*

A: Yes it is. Our tan we use at Elly B Salon is an all natural solution. It does contain DHA's which is the active ingredient to produce a colour. Therefore we don't recommend it be a weekly occurrence.

Q: *Will chlorine remove my tan?*

A: Yes it can. Chlorine acts as a tan stripper, ensure you moisturize daily to prolong your tan

Q: *Does Spray tan contain SPF?*

A: No. Ensure you use sunscreen whilst in the sun.
